

**Site Option A**  
(Preferred)

Three linked cantilever shade structures adjacent to existing building providing 1500 sf of covered area.

Shade position within fire separation requires significant code analysis to determine feasibility.

Site Option A

**Site Option B**  
(Alternate)

Two linked cantilever shade structures outside of fire separation providing 1000 sf of covered area.

Shade position outside of fire separation is code compliant. Exact position of alternate location TBD.

Site Option B

**DSA Pre-Check Cantilevered Shade**

*Project Estimate (Option A)*

Shade Structure Fab & Install	\$100,000
DSA Fees (1.5% of Cost)	\$1,500
Design Fees	\$1,000
Contingency (approx. 20%)	\$22,500
<b>Total Est. Project Cost</b>	<b>\$125,000</b>

*Pre-Check Shade qualifies for DSA OTC (Over the Counter) Approval*
